Bob-

How are we looking on this?

I really need to provide some concrete information to the client and private property owner.

Thanks-

Bill

Hi Bill,

I think we are getting much closer to closing out sites with ICs within the reservation boundaries. Our attorneys have been communicating with the tribal legal staff and we are putting together draft documents for them to review as models for sites such as the Clark site.

Once we have approval on the format, the next step will be for the tribal staff to submit the information to the council for approval. I expect to have more information within a few weeks. The region is very interested in moving this forward.

Have you had any recent communication with the present site owner? Is he still willing to accept ICs to get the site closed out?

Thanks.

Bob

Bob-

Can you let me know the status on this? We are trying to plan our efforts to close this site.

Thanks-

Hi Bill:

We are awaiting a response from the tribe regarding consultation on closures. Our contact has requested time with the tribal council to discuss the process.

One of the first two sites to move through the process will be the Former Clark property.

I believe that we will have a better sense of timing after we get a formal response from the tribe. I can then get back to you and we can have a call about how to proceed.

Please let me know if you have any questions.

Regards,

Bob

Hi Bob-

Anything we can do on this project to move things forward?

Thanks-

Hi Bill,

There have been a couple of iterations of an internal decision memo that have gone to our attorney for review. Once it is finalized, we can move forward with identifying the specific language we need in a closure approval. The work on the memo is being done by another person in my section.

It might be helpful to have a call with you and our attorney so we can discuss the steps moving forward. Any final decision on closure will need to be reviewed by the tribe. We will need a concurrence from them on closure. There is a fairly new contact at the tribe who we have been working with, and he is very interested in moving qualifying sites through the closure process. Possibly a discussion with all of us would be helpful.

Let me know what you think.

Regards,

Bob

Hello Bob-

Is there any news to report on this project? We would really like to proceed towards closure of this release.

Thanks for your help-

Hi Bill,

Due to workload issues, my supervisor asked a colleague to help with preparation of our administrative record for the site. I will check with her to see what progress has been made with our legal folks.

Hi Bob-

Any update on this?

Thanks, Bill.

I have an attorney assigned to the site file and am preparing a site status memo to share with the tribe. We will need to ask them to provide input prior to moving toward closure. They may or may not decide to offer comments.

I took a quick look at the report and it appears that there was good news on the sample results.

Talk to you soon.

Bob

Bob-

Please see the attached report discussing the results of the VI investigation at the former Clark #823 site in Mt. Pleasant, MI.

I will give you a call next week to discuss what we should do next to close the site.

Thanks for your help.
